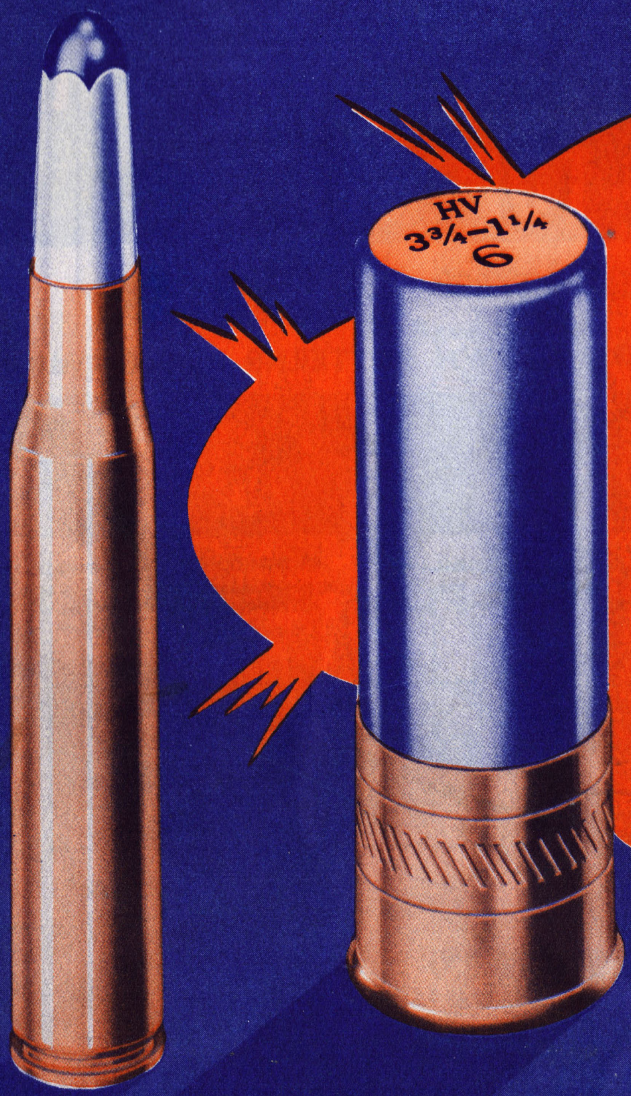
PRICE LIST EFFECTIVE AUGUST 29, 1950

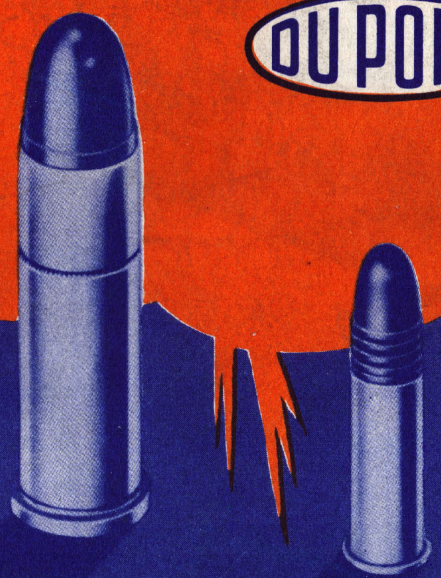
(Prices Include U. S. Excise Tax of 11%)
Prices Subject to Change Without Notice

PETERS
SPORTING AMMUNITION



FAIR TRADE

The retail prices (per box) and wholesale prices (per M) shown herein on loaded shotshells and loaded metallic cartridges have been established as minimum Fair Trade prices in all states having Fair Trade laws.



DUPONT

PETERS CARTRIDGE DIVISION

REMINGTON ARMS COMPANY, INC., BRIDGEPORT 2, CONN.

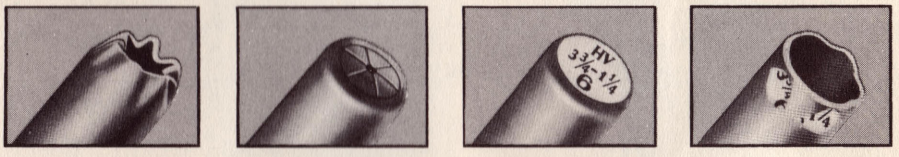
BRANCH WAREHOUSE — 817 SPRUCE ST., ST. LOUIS 2, MO.

IMPORTANT!

Pages 12 to 14 show the locations of wholesale distributors and the zones governing minimum wholesale prices FOB each of these locations. The wholesaler must quote FOB the location nearest to the dealer at zone prices governing that location, but in that event freight from his warehouse should be prepaid and the actual freight applying from the selected location should then be charged.

BLOWN PATTERNS IMPOSSIBLE WITH PETERS 'HIGH VELOCITY' SHOT SHELLS ...WITH NEW FLAT-TOP CRIMP!

HERE'S HOW BLOWN PATTERNS ARE ELIMINATED!



MOUTH OF SHELL is crimped; and then ironed down so there is . . .

NOTHING to obstruct the shot charge. Special crimp is then . . .

WATERPROOFED with patented seal fixed by a special adhesive that . . .

ADHERES TO SHELL as gun is fired. There's nothing to obstruct shot charge.

This spark photograph shows unobstructed flight of shot charge resulting from New Flat-Top Crimp. Result . . . perfect pattern. No "holes" or thin areas for game to slip through.

PETERS PACKS THE POWER!

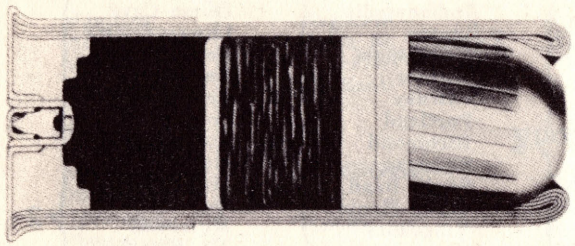
"HIGH VELOCITY" RIFLED SLUG



Take a good look at the 12 gauge "High Velocity" rifled slug shown here. It weighs 415 grains, travels 1470 feet per second with almost a ton of energy at the muzzle . . . that's REAL POWER for shotguns. Enough to knock down deer, bear, cougar, fox and other game for keeps.

By actual test, the "High Velocity" rifled slug has proved more accurate than old style round ball loads. The rifled surface, hollow base and bullet-like contour contribute to an accuracy heretofore never attained with shotguns. Hunters in some states which prohibit the use of rifles for big game hunting will welcome this amazing improvement in accuracy, because when you aim right it means a SURE hit. They may be used in any boring of gun from cylinder to full choke, intended for maximum loads and in good condition.

"High Velocity" rifled slugs are available for 12, 16, 20 and 410 gauge shotguns. Prices on page 3.

EMPTY PRIMED PAPER SHELLS

Gauge	Length Inches	List Price Victor Per M
10 Ga.	2⅞	43.50
12 Ga.	2¾	43.50
16 Ga.	2⁹⁄₁₆	38.00
16 Ga.	2¾	43.00
20 Ga.	2¾	42.50
*28 Ga.	2¾	42.90
*410 Ga. H.V. . .	3	42.90
*410 Ga. H.V. . .	2½	42.90

* Supplied in High Velocity.

All Empty Shells packed 100 in a box; 5,000 in a case.

WADS

Gauge	List Price Card AA Heavy Per M	List Price Card A Medium Per M	List Price Card B Thin Per M	List Price Black Edge Per M

SUGGESTED SHOT SIZES

PETERS HAS THE RIGHT LOAD FOR EVERY KIND OF GAME

Game	Shell	Shot Size	What Experienced Hunters Say . . .
DUCKS	"High Velocity"	4, 5, 6	Use No. 4 shot for long range and pass shooting. For normal range—No. 5 or No. 6 shot while some hunters use No. 7½ shot for closer range shooting over decoys.
GEESE	"High Velocity"	BB, 2, 4	Goose hunters need wallop to fold up their birds so they use the big loads with large shot. Many hunters prefer No. 4 shot for a denser pattern at shorter ranges over decoys.
PHEASANTS	"High Velocity"	5, 6	For cornfield shooting where long shots are usual—better use No. 5. On a normal rise over dogs and for all around use No. 6 is the favorite. Bigger shot may be dangerous when hunting in large groups.
GROUSE OR PARTRIDGE	"High Velocity" or "Victor"	5, 6 7½, 8	On the smaller birds such as ruffed grouse or Hungarian Partridge use the smaller shot. The big western grouse (sage, sooty, and blue) call for heavier loads and large shot.
QUAIL	"Victor"	7½, 8, 9	For early season shooting on bob-whites when feathers are light some hunters use No. 9 shot. Later they switch to No. 8. On the running and wild flushing type of quail, such as the Gambel's, larger shot is sometimes used.
DOVES AND PIGEONS	"High Velocity" or "Victor"	6, 7½, 8	You can do a good job on mourning doves at normal ranges with Peters "Victor" and No. 7½ or No. 8 shot—but for longer ranges use "High Velocity" and No. 6 or No. 7½. Use the same load on band-tailed pigeons and white wings.
WOODCOCK	"Victor"	7½, 8, 9	Your choice of shot size here will depend on ranges at which your game is shot. For fast shooting in the alder thickets, No. 8 shot is a good choice.
RABBITS	"High Velocity" or "Victor"	4, 5, 6	For cottontail rabbits at normal range, Peters "Victor" is suitable, but for larger game such as jack-rabbits and snow shoe rabbits use "High Velocity".
SQUIRRELS	"High Velocity"	5, 6	Most hunters use 5's or 6's and prefer the heavy loads particularly in the tall timber.
RAIL	"Victor"	7½, 8, 9	For the little sora rail, the marsh hen or clapper rail, No. 8 or No. 9 does the job.
TURKEY	"High Velocity"	BB, 2, 4	Choice of shot size depends on your range. If you're a good caller No. 4 shot makes a clean kill while BB's and No. 2's are best for long shots.
FOX	"High Velocity"	BB, 2	It's a toss-up between BB's and No. 2 shot. But remember—the smaller the shot, the denser the pattern.
DEER, BLACK BEAR AND WOLF	"High Velocity"	Rifled Slug and Buck Shot	"High Velocity" rifled slugs are effective up to 100 yards. For deer and black bear 12 and 16 gauge slugs are the best. 0 and 00 Buckshot are the most popular sizes for deer hunters who use buckshot.

Note: Peters "Victor" in No. 7½ Shot Available in Trap Loads Only, No. 9 Shot in Skeet Loads Only.

LOADED AMMUNITION

Fair Trade Agreement

NOTICE OF CHANGES IN STIPULATED MINIMUM RESALE PRICES

Bridgeport, Conn.
August 29, 1950

TO ALL JOBBERS AND RETAILERS AND
TO ALL OTHERS CONCERNED:

Pursuant to the provisions of the PETERS Loaded Ammunition Fair Trade Agreement, the undersigned, Remington Arms Company, Inc., (Peters Cartridge Division) hereby gives you notice that all the minimum resale prices stipulated in and by said Agreement have been changed and revised, as set forth in the attached price list dated August 29, 1950 and made a part of this notice and of said Agreement.

All said stipulated minimum resale prices, as so changed, and as so set forth in the attached price list, are now effective and supersede the respective minimum resale prices heretofore stipulated.

Please be governed accordingly by making said prices effective immediately on all sales by you and, in order that your records may be complete, attach this notice to your copy of the Fair Trade Agreement, as evidence of said changes in and revisions of said stipulated minimum resale prices.

REMINGTON ARMS COMPANY, INC.
PETERS CARTRIDGE DIVISION

By R. H. Reman

Director of Sales

RETAIL PRICE LIST EFFECTIVE AUGUST 29, 1950

(Prices Include U.S. Excise Tax of 11%)
Prices Subject to Change Without Notice.

FAIR TRADE

The retail prices shown herein on Loaded Shot Shells and Loaded Metallic Cartridges have been established as *minimum* Fair Trade prices in all states having Fair Trade Laws.
